DETAILED ACTION

Allowable Subject Matter

Claims 1-22 allowed.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for controlling a quiescent point of a linear interferometric sensor system including: filtering light reflected by a interferometric sensor with an adjustable device, the adjustable device having a pass band, the pass band having a center frequency; generating a feedback signal based on a steady state component of the electrical signal and a set point; and using the feedback signal to control the adjustable device such that a quiescent point of the sensor system is maintained at a desired location corresponding to the set point, in combination with the rest of the limitations of claim 1.

As to claim 12, the prior art of record, taken alone or in combination, fails to disclose or render obvious a linear interferometric sensor system including: an adjustable device connected to the coupler to receive light reflected by the interferometric sensor, the adjustable device having a pass band, the adjustable device being configured to filter out light reflected by the interferometric sensor at frequencies outside of the pass band and pass light reflected by the interferometric sensor within the pass band; and a feedback circuit connected to receive the first electrical signal from the first photodetector, the feedback circuit being configured to output a feedback signal to control the adjustable device such that a quiescent point of the sensor system remains at a desired location, the feedback signal being based on a steady state component of the

electrical signal and a set point corresponding to the desired location, in combination with the rest of the limitations of claim 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
